

Greetings fellow Burrill Pines campers!

Welcome to Summer 2022/23 - we hope you'll enjoy your stay! Thanks for taking the time to read Burrill Pines Bushcare Group's Bulletin. Together with the amazing Burrill Pines team, we had a busy off-season, digging a new swale to improve drainage at the northern boundary of the campsite, installing new recycling bins, improving the access road, fixing erosion, laying new turf and planting/mulching a dozen new bush regeneration zones throughout the site.

Here's how you can help us:

1. **Encourage your kids not to remove/play with the rock lining the new swale/drain.** It took a lot of effort to put it in and we need the rocks to stay there to help ensure the site stays dry.
2. **Sort and recycle your eligible 10c Return & Earn bottles and cans using the blue bins** throughout the site. With your help, we can earn \$2,000+ p/a towards our Bushcare efforts!
3. **Donate! Consider donating \$20, \$50 or whatever you'd like towards future initiatives.** Leave your donation with the friendly office staff. In 2022, we raised \$15,000 towards the purchase of a new excavator now in use at the site. A big thanks to everyone who donated!
4. **Look after our beautiful bushy camp site.** Kindly refrain from digging trenches (it disturbs tree roots) or cutting any trees/branches down - and always place your rubbish in the bins.
5. **Volunteer for future working bees.** Email derek.sadubin@gmail.com to learn more.
